

## Assignment 17 : p5.js II

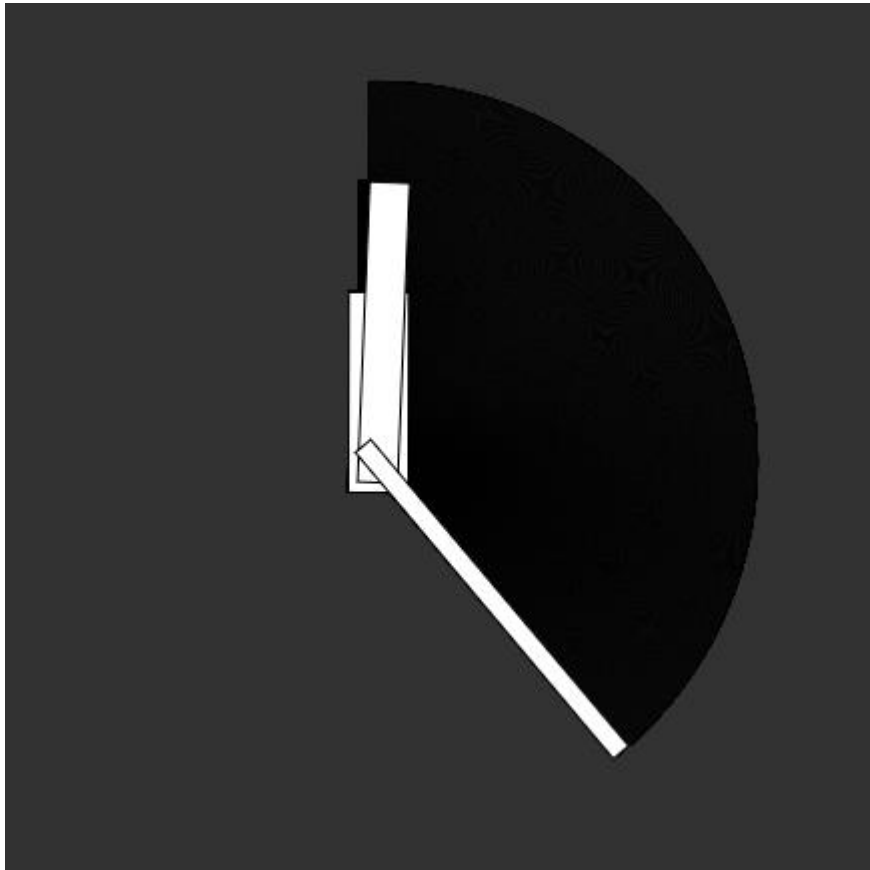

You have already completed the exercise of the submodule 17.2. The link is <https://elearn.ellak.gr/mod/book/view.php?id=5493&chapterid=3757>

In this assignment, you will create a clock simulation which will have hour, minute and seconds “hands”. Each hand should move with the analogous speed.

Create a clock with hour, minute and seconds “hands”.

- Create the clock at the center of the canvas
- You have to include a hand for hours, hand for minutes and a hand for seconds
- Each hand should rotate with the analogous speed ( hour slower than minutes etc)

The outcome should look like:

1. Open your Visual Studio editor and the `p5yourName/modu09` folder.
2. Open the file `ex924.js` in your editor and save it as `assignment17yourName.js` in the same folder
3. Open the file `ex924.html` in your editor and save it as `assignment17yourName.html` in the same folder
4. In the `assignment17yourName.html` file, update the link to `assignment17yourName.js` from `exersice812.js`

---

Modify the `assignment17yourName.js` file to answer the assignment.

**To submit your work, submit the `assignment17yourName.html` and `assignment17yourName.js` files.**
